

**Pam Schmelz**, chairwoman of the information security program at Ivy

**Pam Schmelz**

Tech Community College-Columbus/Franklin, recently attended The Course Technology Conference in San Antonio, Texas. She gave a presentation on "Creating a Two-Year Information

Security Program."

Her presentation focused on the importance of an information security program and the need for classes on personal and professional security, cyber attacks and cyber defense to be taught throughout an information technology curriculum. She discussed the implementation of the two-year information security degree program at Ivy Tech-Columbus/Franklin.
